Certificate Course in Entrepreneurship Development

Certificate Course in Entrepreneurship Development

No society can wait for the chance of 'birth' of entrepreneurs to pursue its developmental plans. In fact, plans for economic development would bear little fruit unless entrepreneurship development is regarded as a deliberate process of making students aware of entrepreneurship as a career at an early age and creating situations where they may actually make a choice to become entrepreneurs. When you make this choice, you become a job-provider rather than a jobseeker, besides enjoying a host of other financial and psychological rewards. Taking to entrepreneurship is surely more a matter of aspiring to become an entrepreneur rather as being born as one. Entrepreneurship development focuses on the individual who wishes to start or expand a business. Small and medium enterprise (SME) development, on the other hand, it also focuses on developing the enterprise, whether or not it employs or is led by individuals who can be considered entrepreneurial. Furthermore, entrepreneurship development concentrates more on growth potential and innovation than SME development does. However, many of the lessons learned from experiences in both types of development are similar.

Specific objectives:

- 1) The main objective of this course is to make the students understand entrepreneurship development process and assistance, which will assist for smooth function of enterprise for long period.
- 2) To impart the core understanding of entrepreneurship development and new dimensions in entrepreneurship which are introduced by government for development of society?
- 3) To provide the knowledge of project management and establishment process of MSME, convert the idea of entrepreneurs in reality with the assistance of government.

Course Outcome:

- 1) The students, ongoing through the course, will be able to establish enterprise by knowing the different assistance made by the institutions for promoting entrepreneurship development.
- 2) The students will gain the knowledge for establishment of enterprise through different schemes introduced by the government for diverse segments of the society.
